

We've built on what we learned with our previous Sharing Bonus and introduced an exciting new scaled aspect to the Selling Bonus. Every time you sell a product, you will earn an immediate 4% Selling Bonus. But as you sell more products each month and achieve Direct Customer Sales targets, your Selling Bonus percentage increases up to 20% for the entire month.

Selling Bonus Calculation

Here's What You'll Do: Sell Products to your Direct Customers.

Here's What You Get: Earn 4% to 20% of the Net Sales Price on your Direct Customer Sales Volume. Your Selling Bonus percentage is determined by your Direct Customer Sales Volume in the current month. Use the table below as a reference to how your selling bonus will be calculated:

WHAT YOU DO	WHAT YOU GET
Sell Products to your Direct Customers	4-20% Selling Bonus Paid on the Net Sales Price of your total monthly product sales to your Direct Customers
0-499 DC-SV	4%
500-2,499 DC-SV	8%
2,500-9,999 DC-SV	12%
10,000+ DC-SV	20%
